COMMUNITY SERVICE

Community service is defined as performing services for a public or not-for-profit corporation, association, or agency. You are required to contact the organization where you would like to perform this community service and make all arrangements. You may use more than one agency to complete your hours within the time frame established by the Judge. At the completion of your community service, the agency must forward to the court a letter (preferably on letterhead) as to the number of hours you completed with their organization. This is the verification the court requires, a phone call will not suffice.

YOU ARE HEREBY REQUIRED TO PERFORM ____ HOURS OF COMMUNITY SERVICE BEFORE _____.
