

**Witness Testifying By Live,
Two-Way Closed Circuit Television
CPL 65.30**

(Specify) will be permitted to testify from another room by way of a live, two-way closed circuit television.

The equipment operator will place herself/himself and the closed-circuit television equipment in a position that limits the ability of (specify) to see or hear the operator or the equipment.

You will see and hear the image and voice of (specify), [as well as the image of all other persons present in the room, except the equipment operator].

Like the testimony of any witness, the testimony of (specify) will be recorded by a court reporter.

The image of you, the jury, will be simultaneously transmitted to the room.

[*Note:* If the court's order pursuant to section 65.20 specified that the vulnerable child witness shall testify outside the physical presence of the defendant, add the following:

The image of the defendant and the image and voice of the person examining (specify) will also be simultaneously transmitted to the room.]

[Add If the defendant makes a request pursuant to CPL 65.30 (6):

You are to draw no inference from the use of live, two-way closed circuit television in the examination of (specify).]
