

RFB# OCA/PS-277

Q & A

1. Please confirm from If the final destination has a loading dock? And, approximately how many cases would be ordered at a time?

Answer: The delivery location does have a loading dock. The loading dock is on New Street, and there is no gate-to-platform delivery allowed. Pallets can be dropped from the truck to the street level and then wheeled into the freight elevator. Please see Delivery-on pg.6 of the Bid specifications for pallet packing instructions (24 cartons per pallet).

OCA will issue purchase orders describing the size(s), number of parts, and sequence to paper, as well as quantities, on an as-needed basis. Minimum orders amounts will be 24 cartons.
