

## Q&A

### Request for Proposals 097: Oneida County Family Treatment Court Family Support Navigator

Q. Does this need to be one single clinician who is available 40 hrs per week to the project? I am asking because our agency does already work closely with Family Treatment Court however there are several clinicians who see treatment court participants and I wanted to have a clear understanding that it would need to be a separate clinician who does not also provide substance abuse or MH counseling for CRC?

A. The required staffing is for a full time position. The incumbent will be dedicated to the family treatment court.
