H NCOA Nixie Option Drops - records identified as potential movers, but, USPS rules do not allow for the new address to be provided due to not tight enough match of the input record to the NCOA database. Records coded with the following Nixie Option codes were dropped per UCS instructions: D, H, J, K, M, N, O, P, U, V, W, X, Z. (See NCOA Report 3).

Total Hygiene Drops - total quantity of drops: sum of columns titled "Not NY" through "NCOA Nixie Option Drops"

Input Less Drops - Input Quantity minus Total Hygiene Drops

Masterfile Input M/P - quantity of records input to merge/purge process

Mainframe Input to M/P - quantity of records input as suppress to merge/purge process

Masterfile Output of M/P - quantity of records after unduplication between sources and against Mainframe suppress file

Additional No In County - After merge/purge it was determined that original county code was in correct for 2% of the final output. These records were then dropped.

Final Output - After additional not in county records were dropped, final quantity submitted to UCS.

Please note: Records are dropped in the order listed. A record may qualify under more than one drop criteria - ie Deceased and NCOA Delete. The record is counted once, for the drop criteria encountered first.

County Code - numeric value assigned to each county

County Name - actual county name

Input Quantity - number of records received from UCS

Drop Criteria

A State code not NY

B SCF range not equal to New York State SCF range

C +4 Code Blank/Inv - not deliverable as a result of DPV/DSF2 processing. Were not able to assign ZIP+4 code.

D Deceased records identified as deceased (A1, A2, B1, C1, C2, C3 - see Deceased Data Suppression Report 1)

E NCOA movers without forwardable new address (see NCOA Report 1)

F Under 18 as of 6/14/2003 - records identified & dropped because they were under the age of 18 as of 6/14/2003

G FIPS Invalid - could not assign new FIPS (Federal Information Processing Standards) County code

H NCOA Nixie Option Drops - records identified as potential movers, but, USPS rules do not allow for the new address to be provided due to not tight enough match of the input record to the NCOA database.
Records coded with the following Nixie Option codes were dropped per UCS instructions: D, H, J, K, M, N, O, P, U, V, W, X, Z (See NCOA Report 3).

Total Hygiene Drops - total quantity of drops: sum of columns titled "Not NY" through "NCOA Nixie Option Drops"

Input Less Drops - Input Quantity minus Total Hygiene Drops

Net Movers In/(Out) - net effect of mover activity as a result of NCOA processing. (People moving into the county minus people moving out of the county.)

Masterfile Input M/P - quantity of records input to merge/purge process

Mainframe Input to M/P - quantity of records input as suppress to merge/purge process

Masterfile Output of M/P - quantity of records after unduplication between sources and against Mainframe suppress file

Additional No In County - After merge/purge it was determined that original county code was in correct for 2% of the final output. These records were then dropped.

Final Output - After additional not in county records were dropped, final quantity submitted to UCS.

Please note: Records are dropped in the order listed. A record may qualify under more than one drop criteria - ie Deceased and NCOA Delete. The record is counted once, for the drop criteria encountered first.

* Out of county – 2,836 records were re-assigned correct NYS county code.

County Code - numeric value assigned to each county

County Name - actual county name

Source code - alpha character assigned to each source see full descriptive above

Input Quantity - number of records received from UCS

Drop Criteria

A State code not NY

B SCF range not equal to New York State SCF range

C +4 Code Blank/Inv - not deliverable as a result of DPV/DSF2 processing. Were not able to assign ZIP+4 code.

D Deceased records identified as deceased (A1, A2, B1, C1, C2, C3 - see Deceased Data Suppression Report 1)

E NCOA movers without forwardable new address (see NCOA Report 1)

F Under 18 as of 6/14/2003 - records identified & dropped because they were under the age of 18 as of 6/14/2003

G FIPS Invalid - could not assign new FIPS (Federal Information Processing Standards) County code

H NCOA Nixie Option Drops - records identified as potential movers, but, USPS rules do not allow for the new address to be provided due to not tight enough match of the input record to the NCOA database. Records coded with the following Nixie Option codes were dropped per UCS instructions: D, H, J, K, M, N, O, P, U, V, W, X, Z (See NCOA Report 3).

Total Hygiene Drops - total quantity of drops: sum of columns titled "Not NY" through "NCOA Nixie Option Drops"

Input Less Drops - Input Quantity minus Total Hygiene Drops

Net Movers In/(Out) - net effect of mover activity as a result of NCOA processing. (People moving into the county minus people moving out of the county.)

Masterfile Input M/P - quantity of records input to merge/purge process

Mainframe Input to M/P - quantity of records input as suppress to merge/purge process

Masterfile Output of M/P - quantity of records after unduplication between sources and against Mainframe suppress file

Additional No In County - After merge/purge it was determined that original county code was in correct for 2% of the final output. These records were then dropped.

Final Output - After additional not in county records were dropped, final quantity submitted to UCS.

Please note: Records are dropped in the order listed. A record may qualify under more than one drop criteria - ie Deceased and NCOA Delete. The record is counted once, for the drop criteria encountered first.

Elimination of source Duplicates

County = New_York or Statewide
