MOBILE LEGAL HELP CENTER

The Mobile Legal Help Center is a partnership between the New York Legal Assistance Group (NYLAG) and the New York State Office of Court Administration's Access to Justice Program that brings free legal services to communities across New York.

This state-of-the-art vehicle serves as a fully functioning mobile legal services office. A team of lawyers and court staff are onboard to provide assistance with a wide array of civil legal problems. Direct services include advice, legal counseling, direct representation, community education and, in certain emergency situations, access to court judges via videoconference.

In addition to computers, printers and other office equipment, the Center includes separate meeting areas to ensure clients' privacy when meeting with an attorney. All information shared during an appointment is completely confidential.
